Race Belt

APPAREL & ACCESSORIES

Race Belt

Flexible Wetsuit Hanger

APPAREL & ACCESSORIES

Protect your investment by prolonging the life of your XTERRA WETSUIT.

This flexible wetsuit hanger is made from a special memory foam which conforms to the shape of your wetsuit, eliminating any creases or stresses in the seams of the neoprene. The hanger hook easily unscrews for ease in traveling.

Transition Bag

APPAREL & ACCESSORIES

This is a necessity for race day and traveling to workouts.

Made from high quality materials, our transition bag is fully equipped to hold all of your triathlon gear.

- Waterproof wetsuit pouch
- Padded adjustable straps
- Two side zipper pockets for phone, wallet, nutrition, tools or other smaller items. One pocket includes an internal key hook.
- Side mesh water bottle pocket
- Internal vented pocket for shoes and/or wet gear
- Large external mesh pocket for helmet, shoes or additional water bottles
- Soft internal sunglasses/goggles pouch

Vendetta

WETSUITS

TOP OF THE RANGE

XTERRA's most technologically advanced wetsuit— the Vendetta is the most flexible and buoyant wetsuit ever made.

FLEXIBLE

- 5mm front and 3mm back of neoprene
- Fully coated with the slickest possible Nano-Super Composite Skin
- Maintaining an industry leading 0.02 drag coefficient

BUOYANT

- Front panel, from neck to ankles, has X-Air Buoyancy Cells, tiny air pockets embedded throughout the neoprene
- X-Air paneling keeps your body high in the water, thereby reducing drag and increasing speed

CUTTING-EDGE DESIGN

- Anatomically correct arms— each arm and shoulder is made up of 6 individually cut panels of 1.5 mm thick neoprene
- Panels follow the natural curve of the swim stroke, allowing faster and smoother swimming with less effort
- Seam-seal technology uses a triple layer of glue and double-blind stitching to ensure waterproof and long-lasting seams

Vector Pro X2 Sleeveless

WETSUITS

This suit offers true performance on race day— worn in more Ironman and Ironman 70.3 races than any other wetsuit in the world. Designed for speed and flexibility.

FLEXIBLE

- 5mm front and 3mm back of neoprene
- Fully coated with the slickest Super Composite Skin coating
- Maintaining a 0.03 drag coefficient

BUOYANT

- Maximum legal thickness for increased buoyancy

CUTTING-EDGE DESIGN

- Sleeveless design allows for a more natural feel of the water, reducing drag and increasing flexibility
- Seam-seal technology uses a triple layer of glue and double-blind stitching to ensure waterproof and long-lasting seams

Vector Pro X2

WETSUITS

This suit offers true performance on race day— worn in more Ironman and Ironman 70.3 races than any other wetsuit in the world. Designed for speed and flexibility.

FLEXIBLE

- 5mm front and 3mm back of neoprene
- Fully coated with the slickest Super Composite Skin coating
- Maintaining a 0.03 drag coefficient

- Panels follow the natural curve of the swim stroke, allowing faster and smoother swimming with less effort
- Seam-seal technology uses a triple layer of glue and double-blind stitching to ensure waterproof and long-lasting seams

Vortex 3 Fullsuit

WETSUITS

XTERRA's most popular wetsuit— the perfect combination of price, performance, flexibility and durability. It's ideal for athletes who want an all-around wetsuit to use while training and racing.

FLEXIBLE

- 5mm front and 3mm back of neoprene
- Fully coated with the slickest Composite Skin coating

BUOYANT

- Maximum legal thickness for increased buoyancy

CUTTING-EDGE DESIGN

- High quality X-Flex liner throughout entire suit, whereas most other mid-level wetsuits use a high quality liner only in the arms
- Lower neck design adds comfort and increased durability to ensure that the suit will stay intact for seasons
- Seam-seal technology uses a triple layer of glue and double-blind stitching to ensure waterproof and long-lasting seams

Vortex Sleeveless

WETSUITS

XTERRA's most popular wetsuit— the perfect combination of price, performance, flexibility and durability. It's ideal for athletes who want an all-around wetsuit to use while training and racing.

FLEXIBLE

- 5mm front and 3mm back of neoprene

Velocity ++

SPEEDSUITS

IMAGE
COMING
SOON

When you're looking for speed in the water and a wetsuit is not legal, our speedsuit is your best option. Without a speedsuit, you're forced to swim with tri gear or a swimsuit, which creates drag and slows you down.

FLEXIBLE

- Fully coated with slick NANO-SCS coating
- Maintaining an industry leading 0.02 drag coefficient

CUTTING-EDGE DESIGN

- Full coverage from neck to ankles
- Seamless front
- Designed to fit tight, yet comfortable, and fits over tri gear
- Sleeveless design allows for a more natural feel of the water, reducing drag and increasing flexibility
- Slick, non-permeable, extremely durable suit comprised of the fastest material and coating available on the market
- Takes 5 minutes to put on; less than 5 seconds to take off with the easy exit flip zipper

Velocity Speed Suit

SPEED SUITS

IMAGE
COMING
SOON

The Velocity-M Speedsuit will be available towards the end of February 2011; it is WTC, USAT, and ITU legal. When you're looking for speed in the water and a wetsuit is not legal, our speedsuit is your best option. Without a speedsuit, you're forced to swim with tri gear or a swimsuit; these articles create drag and slow you down.

CUTTING-EDGE DESIGN

- Hydrophobic material for drag reduction
- Single-layer technology to reduce absorption and weight
- Men's small weighs 85 grams
- Strategic panels for compression and fit
- Composite woven material for flexibility
- Break-away zipper (so no leash or lanyard is necessary) – simply flip the zipper up, and the speedsuit will peel right off
- Fast whether worn over your tri-kit or on bare skin
